Kono-Basho Staff Rants

Howdy all,

We proudly present you the new chapter of Baggataway !
And this time to celebrate Manchester United win against Schalke, I release it without watermark!! So Rejoice!!

Also talking about watermark, there been so many complain about the watermark. I would like to point out few things :
1. The one need to be thanked for the existence of the watermark is www.mangareader.net
2. We are releasing the non watermark version 3 days after the first release so if you don't like the watermark version you could just wait for the non watermark version

Also there been really lack of applicant for almost a year now, staff don't grow up from tree you know so we encourage our reader(if there is still any) to help us scanlate stuff.
